WT 125 Generational Plan
Colleges and Responsibility Areas

**Date**
March 26, 2018

**Area of Responsibility Name**
Panhandle-Plains Historical Museum; submitted by Carol Lovelady, director of Panhandle-Plains Historical Museum

**Introduction**
In grouping WTAMU entities for the WT 125 planning process, Panhandle-Plains Historical Museum was placed in the theme group Intellectual Resources. However, no staff member from Panhandle-Plains Historical Museum served as a member of the Intellectual Resources group and therefore, the museum was not adequately represented in the group report. Reading the summaries of the ten theme groups by the director of the museum brings to light ways in which the Panhandle-Plains Historical Museum relates to and can actively participate in achieving goals in nine of the ten theme groups. This Generational Plan Outline will address all theme groups based on current museum research and proposals contained in the White Paper provided by the museum at the outset of the WT 125 initiative.

Summary

Panhandle-Plains Historical Museum provides WTAMU with singular opportunities, including:

- A first visit to WTAMU. Whether it is a family on vacation touring the museum, preschool children coming to see the dinosaurs or retirees stopping on a cross-country bus trip, PPHM is often the first visit to the WT campus. This is an opportunity the university needs to seize. Panhandle-Plains consistently receives the Trip Adviser Certificate of Excellence, indicating positive traveler reviews. WTAMU needs to link itself to PPHM – from placing university merchandise in the museum store to the maintaining the building to providing recognition of the museum in the downtown Amarillo center. WTAMU will be well-served by claiming Panhandle-Plains Historical Museum.

- An initiator. With the upcoming debut of a 3D reproduction of Georgia O'Keeffe's *Red Landscape*, PPHM is the first museum in the U.S. to provide art for the sight-impaired. This is the stepping stone to establishing the WTAMU Quality of Life Center at PPHM, designed to provide opportunities, fellowship and services for the aging Amarillo/Canyon population.

- A national reputation. PPHM is known within the museum world for its exceptional collection, knowledgeable curators, and courteous staff. Dr. Lynn Denton, director of Public History and Center for Texas Public History, who served for 16 years as the director of the Bob Bullock Texas State History
Museum, describes PPHM as “a landmark institution in innumerable ways...a state treasure.”

- A beloved institution. The Panhandle-Plains Historical Museum has been a part of life for residents of the region for 75 years. Funds raised by citizens in Amarillo and Canyon and students at West Texas State University encouraged the Texas Legislature to help fund the museum. Newspaper reports say guests flooded into the museum when it opened its doors on April 14, 1933. When Texas Governor Bill Clements cut the museum’s funding in 1987, individuals, schools, businesses and foundations came to the rescue, providing the funds the state withheld.

- A logical partner for West Texas A&M University. “Research into public attitudes about museums shows people see museums as places of stimulating ideas, where learning is active. People see museums as fundamentally about learning for all.”

- A representative of WTAMU across the world. Paintings, stirrups, a Comanche headdress, prohibition-era clothing – items from PPHM are loaned worldwide. Most recently paintings were shipped from Canyon to Brussels, Belgium, at the request of Kay Bailey Hutchison, Permanent U.S. Representative to NATO.

- A vehicle for engendering community support. With its calendar full of programs and relationships with schools and businesses in Amarillo and Canyon, PPHM reaches out into the community in service and partnership. The possibilities for partnership between PPHM/WTAMU and the community are limited only by the size of the PPHM staff.

- An educational resource. Whether through Education On Demand or the university curriculum, PPHM can provide WTAMU with one-of-a-kind educational opportunities for traditional and non-traditional students. A certificate in museum studies from WTAMU/PPHM will benefit struggling museums across the Texas Panhandle.

- A research opportunity. With a collection of more than 2 million items and a renowned Research Center, PPHM is an untapped resource for researchers of the American West.

- A gift to the community. A recent study of museums by the Museums Association of the United Kingdom expressed it this way: Museums are one of the things that make a place worth living in and worth visiting. They help define a place.

- A place of open dialogue. In the 2017 Annual Survey of Museum-Goers, respondents indicated museums have helped them see different perspectives and viewpoints, promoting tolerance and understanding.
