Technical Notes for Data Slides

- Data for WTAMU are represented by **MAROON** bars.
- Data for all peers are represented by **GRAY** bars.
- The vertical **RED** line on each slide represents the mean value for that specific data point.
Geographic Peers: Full-time Equivalent Enrollment

Note: FTE enrollment is a measure of institutional size that normalizes the mix of full-time and part-time students.

Developmental Draft -- Not For Publication

5.70
Geographic Peers: Fall-to-Fall Retention (First-time, Full-time students)

Note: This retention rate is a key performance indicator of institutional effectiveness used by many universities and organizations across higher education.
Geographic Peers: 6-year Graduation Rate

Note: Graduation rate is a key performance indicator of institutional effectiveness used by many universities and organizations across higher education.
Geographic Peers: Degrees Awarded per FTE

Note: This locally-created metric divides total degrees awarded by student FTE to make 'apples-to-apples' comparisons across institutions with different sizes of enrollment.

Geographic Peers

- Fort Hays State University

- Fort Hays State University
- Colorado State University–Pueblo

Developmental Draft -- Not For Publication
Geographic Peers: Academic Program Similarity Score

Note: This locally-created metric calculates how similar an institution's academic program mix is when compared to the target institution (WTAMU), which is why WTAMU does not have a score. Score range is 0–100. Lower scores are better.
Geographic Peers: % of Adult Undergraduates (25-64)

Note: This percentage provides a rough estimate of how many ‘non-traditional’ students are enrolled at each institution.
Geographic Peers: Research Expenditures per FTE

Note: This metric shows how much an institution spends per FTE student to produce research outcomes. This is an outcome that will need to increase as WTAMU works toward becoming a Regionally Responsive Research University.
Geographic Peers: Graduate Enrollment as Percentage of Total Enrollment

Note: This percentage shows the proportion of graduate students in the student body.
Geographic Peers: % Undergraduates Enrolled Only in Distance Courses

Note: This is an important metric as WTAMU explores potential growth in distance education at the undergraduate level.

[Bar chart showing enrollment percentages for various universities, with West Texas A&M University highlighted]
Geographic Peers: % Graduate Students Enrolled Only in Distance Courses

Note: This is an important metric as WTAMU explores potential growth in distance education at the graduate level.
Geographic Peers: % of Undergraduate Students who are Women

Note: This metric indicates the gender distribution at each institution.
Geographic Peers: % of Undergraduate Students who are White

Note: This metric provides a rough estimate of diversity at each institution.
Geographic Peers: Average Salary of Assistant Professors (9-month equated)

Note: Salary comparisons across institutions in different states/regions should be made with caution.
Geographic Peers: Average Salary of Associate Professors (9-month equated)

Note: Salary comparisons across institutions in different states/regions should be made with caution.

Developmental Draft -- Not For Publication
Geographic Peers: Average Salary of Professors (9-month equated)

Note: Salary comparisons across institutions in different states/regions should be made with caution.
Geographic Peers: Student-to-Faculty Ratio

Note: This ratio shows the number of FTE students to FTE instructional staff. WTAMU’s ratio was 22:1 in 2014–2015. Lower ratios indicate the institution employs more faculty per student.
Geographic Peers: Instructional, Research, and Public Service (Faculty) FTE

Note: This metric shows how many FTE staff have duties primarily related to instruction, research, and public service.
Note: This metric shows how many total FTE staff are employed by each institution. This count includes all occupational categories (administrative staff, instructional/research/public service staff, etc.).
Geographic Peers: Total Price for In-State Students Living on Campus

Note: This total price calculation allows inter-institutional comparisons of the average annual cost for students who qualify for in-state tuition and live in on-campus residence halls.

University of Colorado Colorado Springs: $24,000
Colorado State University–Pueblo: $23,000
Texas A&M University–Kingsville: $22,000
Lamar University: $21,000
Stephen F Austin State University: $20,000
Texas A&M University–Corpus Christi: $20,000
West Texas A&M University: $20,000
Angelo State University: $19,000
Midwestern State University: $18,000
Texas A&M International University: $18,000
Texas A&M University–Commerce: $18,000
Southwestern Oklahoma State University: $18,000

Geographic Peers: Core Revenues (Total Dollars)

Note: Core revenues include tuition and fees; government appropriations; government grants and contracts; private gifts, grants, and contracts; investment income; other operating and nonoperating sources; and other revenues and additions.
Geographic Peers: Tuition and Fees as Percent of Core Revenues

Note: This percentage provides an estimation of how reliant an institution is on student tuition and fees as a source of revenue.
Geographic Peers: State Appropriations as Percent of Core Revenues

Note: This percentage provides an estimation of how much support an institution receives from the state.
Geographic Peers: Core Expenses (Total Dollars)

Note: This total includes expenses for instruction, research, public service, academic support, student services, institutional support, operation and maintenance of plant, depreciation, scholarships and fellowships, interest, and other operating and non-operating expenses.

Developmental Draft -- Not For Publication

5.93
Geographic Peers: Instruction Expenses as a Percent Core Expenses

Note: This percentage provides an estimation of how much an institution spends on instructional expenses compared to other core expenses.
Geographic Peers: Research Expenses as a Percent Core Expenses

Note: This percentage provides an estimation of how much an institution spends on research expenses compared to other core expenses. Not all institutions in this Comparison Peer group reported research expenses in 2014–2015.
Geographic Peers: Student Service Expenses as a Percent Core Expenses

Note: This percentage provides an estimation of how much an institution spends on student service expenses compared to other core expenses.
Note: This percentage provides a rough estimate of institutional efficiency. An institution that is close to 100% on this metric is investing most of their core revenues in core areas essential to the successful operation of the university.
